---

**EXPERIENCE** 2008- **Gogojc**  
Developing games for iPhone/iPod touch using Objective-C and OpenGL ES  
· Developed Symbol6, a fast paced puzzle game for iPhone/iPod touch  
www.symbol6game.com

2007- **Self Employed**  
Currently running my own software company, solving various problems for clients  
· Designed and developed a music store client for Tonlist.is/D3. Biggest online music distributor in Iceland. Written in Objective-C/Cocoa  
· Programmed and designed a web-based real estate client in collaboration with Think Software. I lead a small team of developers for this project  
· Worked on deCODEme for Decode Genetics. deCODEme is a service offering a genome scan and online analysis of DNA profiles  
· Created a back end for an interactive flash banner showing statistics, videos and more for Landsbanki Íslands (The National Bank of Iceland)  
· Developed a data processing application for Stilling ehf. Written in Objective-C and C  
· Did consulting work for Gogoyoko, a start-up targeting the music industry world wide  
· Developed a web-based front end for configuring mobile services for Vodafone. Written in PHP in collaboration with Think Software

2007 **Glitnir Bank**  
Worked on Iceland's largest online banking system. Mostly using Microsoft .NET and Oracle

2003-2007 **Think Software**  
Chief Technology Officer  
· Designed and developed a large and flexible CMS that now runs over 200 websites.  
· Created a mobile client for a task management system. Written in C# and runs on Windows Mobile

1999-2007 **Freelance Work**  
Web development and graphic design  
· Developed a small online store for Naked Ape / www.dontbenaked.com  
· Developed an Icelandic music site / www.rjominn.is  
· Developed a portfolio website for Gott Fólk (advertising agency)  
· Developed an Icelandic XBOX website for Tölvudreifing ehf  
· Graphic design for Akureyri Junior College  
· Designed, developed and maintained an Icelandic community website focused on design, art and photography

2000-2003 **Teikn á lofti / Part-time**  
Graphic design and web programming  
· Worked on an online map solution / Inter-map  
· Worked on an online database for KGSÍ (the Icelandic graveyard institution)

---

**PERSONAL PROJECTS** 2007 **Peel**  
Designed and developed an application to monitor MP3 blogs and stream music. Written in Objective-C/Cocoa

**Media Coverage**  
· *"Being a hip audiophile just got much easier."* - Brian Chen, Macworld  
· *"Mac-using MP3 blog readers of the world rejoice, for this new application shall make your music consuming lives a breeze."* - Stereogum  
· *"MP3 blogs are officially the new file-sharing. We've said it before, but the arrival of Peel, a program that harvests MP3s from the blogs themselves, puts the icing on the cake."* - Dave Morris, Eye Weekly
